Q2 results: Sound figures

Eckert & Ziegler reported solid Q2 figures this morning. A conference call is held at 10:00 CEST.

Q2 sales came in flat yoy at € 34m and thus in line with estimates (H&A: € 33m). Organic sales growth should be slightly positive at 2-3% yoy. Isotope Products remained flat yoy at € 18.9m thanks to sound dynamics in the medical field which compensated for a weakness in oil & gas related end-markets. Therapy sales declined by 27.0% yoy to € 5.6m due to the deconsolidation of the US seed business (H&A: ~€ 1-2m) as well as a weak afterloader business. Radiopharma sales posted strong growth of 18.8% yoy to € 9.8m driven by solid generator sales.

Q2 EBIT declined by 32.5% yoy to € 4.9m which exceeded expectations (H&A: € 3.8m) however largely amid the reclassification of an Isotope Products unit as discontinued operations. Isotope Products thus posted an EBIT of € 3.4m (H&A: € 2.8m) implying a flat EBIT margin of 17.9% amid the reclassification while the product mix should have been weaker (less oil & gas clients). Therapy EBIT developed strongly to € 0.4m (H&A: € 0.0m; Q2 15: € -2.1m) thanks to the deconsolidation of the US seed business as well as solid restructuring benefits. Radiopharma EBIT came in at € 1.1m implying a sound 11.5% EBIT margin (H&A: € 1.2m; Q2 15: € 6.0m incl. one-off gain) due to solid generator and consumable sales.

Importantly, the strong yoy group EBIT decline is largely a result of one-off gains of around € 5.9m last year which were only partially offset by restructuring expenses (H&A: € 2-3m). **Adjusted EBIT should thus have increased significantly (>20% yoy)** thanks to sound restructuring benefits.

Q2 net income came in at € 2.2m and thus fully met expectations (H&A: € 2.2m). Despite the higher EBIT, the result from discontinued operations of € -0.5m was included (which we had initially reflected in our EBIT estimates).

Outlook: Management reiterated its **FY guidance of approximately € 140m in sales (H&A: € 140m) as well as an EPS of around € 1.80 (H&A: € 1.79)** which should be in reach given the solid H1 performance (EPS € 0.89) as well as the company's progress to reduce its cost base.

All in all, the **Q2 figures underscore that the company is well on track to achieve its FY targets.** Moreover, trading at merely 6.1x EV/EBIT 2016E, valuation looks highly undemanding. **BUY** with a **PT of € 28** conservatively based on FCFY 2016E.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjustment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

Hauck & Aufhäuser Privatbankiers KGaA uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 10% within 12 months
Sell: Sustainable downside potential of more than 10% within 12 months.
Hold: Upside/downside potential is limited. No immediate catalyst visible.

NB: The ratings of Hauck & Aufhäuser Privatbankiers KGaA are not based on a performance that is expected to be "relative" to the market.

The decision on the choice of the financial instruments analysed in this document was solely made by Hauck & Aufhäuser Privatbankiers KGaA. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of Hauck & Aufhäuser Privatbankiers KGaA whether and when it publishes an update to this research report.
